DETAILED ACTION

1. This action is responsive to the amendments filed May 15, 2009. In the instant amendment, claims 1 and 5-18 have been canceled; and claims 39-50 have been added.
2. Claims 39-50 have been examined, and all remained pending claims are allowed (renumbered 1-12).

Examiner's Statement of Reasons for Allowance

3. As Applicants pointed out in the Remarks, the prior art of record (Gordon, Sully, and Leinecker) do not disclose and/or fairly suggest at least claimed limitations recited in such manners in independent claim 39 *"...sequentially calling a generate code interface of each build provider, wherein each build provider contributes at least a portion of the source code of the build provider's associated file to be compiled via one or more of: writing the source code to a code file object by calling a create code file object interface of the build provider host; writing the source code to a stipulated path by calling a get code file path interface of the build provider host; and generating a code compile unit by calling a get code object model provider interface and an add code compile unit interface of the build provider host"* (Remarks, pp. 6-7).

These claimed limitations are not present in the prior art of record and would not have been obvious, thus all pending claims are allowed.
